742 - What did you like most about the course?	
1	The fact that teacher wanted us to understand the concepts and not just learn things by art
2	As far as I'm concerned the course was done very well
3	The professor's teaching styke
4	the macroeconomic part was really interestisting. I wish to have done more
5	the last lesson
6	I liked the broad perspective on economic systems and how macroeconomic variables interact. The course helped connect theory to global economic issues.
7	I really liked the professor¿s approach to teaching and his attention to always being available and helping students.
8	The explanation
9	The clarity of the professor's teaching
10	I liked the clear explanation of economic concepts and their application to real-world situations. The course helped me develop a better understanding of markets and decision-making.
11	Subject very interesting
12	nothing to comment
13	I appreciated the way he structured, and the fact that he was always clear on what we were doing, why, to what it was connected in real life.
14	very useful informations for our career
15	The way of teaching
16	The professor was very kind, and very clear about the exam. It was the best professor of the spring session.
17	I appreciated the overall organization of the course and the way the topics were presented. The lessons were interesting and helped me better understand the subject. I also liked the availability of the teaching materials and the support provided during the course.
18	Ahahahahahahahahaha
19	I don¿t know
20	The professor's way of teaching
21	The topics that can be useful for interviews
22	The teachers were young and great. They explained many times how the exam would be and what to expect
23	I loved the why the professor explained, he was very clear
24	keqkjq 2kk21
25	The professor
26	All the course
27	The interactive way of teaching
28	i liked the course
29	The teacher had really good pedagogical skills

743 - What suggestions would you make to improve the course?	
1	Honestly I don't have any suggestion. The course was great
2	I have nothing to suggest, it was perfect
3	More explanation/breakdown on how each topic links together/the relationship between interest rates inflation etc.
4	it was very complete, so the only thing that i can say is to make more real life examples.
5	too much detailed for an entry level of macro
6	Including more current real-world examples and discussions would make the content more engaging. Some topics could be explained more intuitively.
7	I would suggest keeping the same teaching style because it was very useful for students, as well as the final

743 - What suggestions would you make to improve the course?	
	part where we could choose the topic we were more interested in from two options. This showed the professor's attention to involving students.
8	I dont know
9	More practical applications with real world scenarios
10	Adding more practical examples and interactive discussions could make the course even more engaging and easier to apply to real cases.
11	Give more time
12	nothing to comment
13	I would say that there is no improvement to be made
14	the professor was amazing but unfortunately not so many people were giving him the attention, he should be more charismatic
15	Nothing, I liked the course and way of teaching
16	nothing in particular
17	The course was well structured overall. One possible improvement could be to include more practical examples and interactive activities during the lessons to make the topics even more engaging and easier to apply.
18	Ahahahahahahahahahahaha
19	I don't know
20	Nothing in particular
21	Doing much more examples during the lessons
22	Nothing they covered everything
23	don't know
24	kwbjew kj we cw
25	Nothing it was good
26	It needs more hours
27	I have no suggestions
28	nothing i liked the way of teaching
29	This course would have benefited to have some catch up classes for those who did not come from an economic background because the disparity inbetween the levels was too high
